

GREAT GIFTS FOR GARDENERS

Cohasset Wind Chimes

Thinking tiny, tacky chimes with a tinny sound? Cohasset Chimes are here to change your mind! These gorgeous hand crafted chimes are designed with North American gardeners, and feature wildlife figures such as birds, fish and even bears. Cohasset travels directly to Bali and works with the artists that manufacture the products. Paying these artists directly insures that they are treated and compensated fairly.

Hand carved and hand painted!

Each chime is made from bamboo, coconut and other fast growing plants that are very sustainable. Some of the unique designs even feature driftwood harvested by local fisherman in Bali. Not only a unique piece of garden art, but a wonderful way to support artists, fisherman and villagers in Bali.

The Aerogarden indoor gardening kit is amazing! The no-dirt, no-mess Plug & Grow™ system makes gardening fun, easy, and foolproof. It even controls the built in grow bulbs and tells you when to add water and nutrients.

Simply fill with water, add seed pods, add nutrients and turn on. You'll have fresh herbs in no time!
